# 1. Log in

1. Go to the Chrome browser and type in <https://www.idealclinic.org.za> in the URL box and press Enter on the key board.
2. Select the 'LOGIN' tab.

**Note:** the test site for training is available at <https://test.idealclinic.org.za>. The generic login details are:  
**Username:** TestAccount  
**Password:** Password789

**Note:** the preferred web-browser to use is Chrome

3. Retrieve the e-mail that was sent to the user upon creation of his/her user account. The username and temporary password of the user is indicated on the e-mail.

A new password has been sent to your email address (8)

No account for this email address (9)

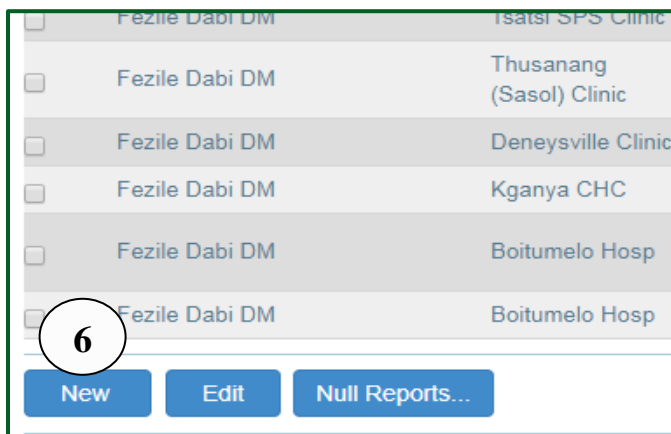

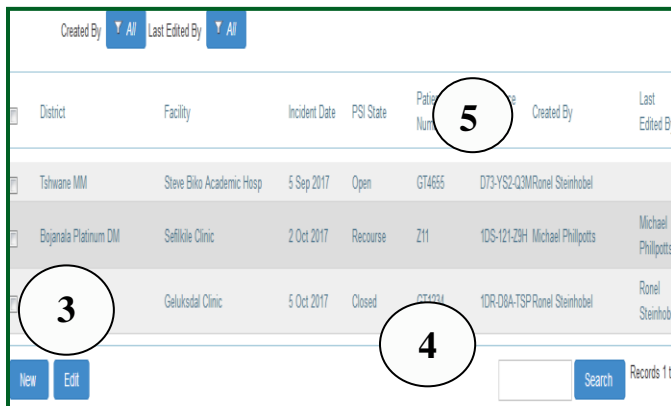

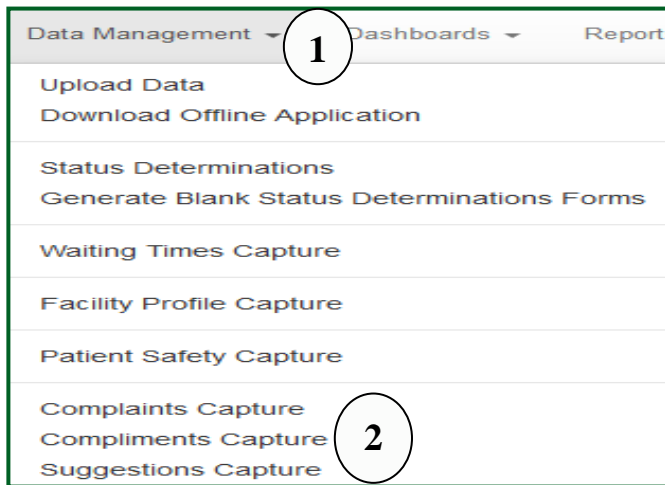

4. Enter the username and the temporary password that was e-mailed to the user in the text boxes provided.
5. Click on the 'Login' button. **Note:** it's best to copy the password from the e-mail and paste it in the 'Password' box to prevent typing errors.

In cases where staff forget/lost their password, follow the procedure as set out in point 1 to 2.

6. Enter the e-mail address that was used to create the user's user account in the text box named 'Email Address' under the section for "Recover Lost Password" .
7. Select the 'Reset Password' button.
8. A message will appear stating: "A new password has been sent to your email address". The user will then receive an e-mail with a new password.
9. If the account does not exist or the e-mail address was mistyped a message will appear stating "No account for this email address". Contact the provincial or district coordinator to assistance the user to apply for a user account.

10. When the user log on for the first time, the user will be prompt to enter his/her own password twice. **Note: the password must have 1 UPPERCASE, 1 lowercase character and a numeric or special character**

## 2. Capture a complaint, compliment or suggestion record

1. Go to the 'Data Management' tab.
2. Select one of the three options depending on what the user want to capture, i.e. 'Complaints Capture, Compliments Capture or Suggestion Capture', that will direct the user to the capturing screen.

**Note:** The options under the drop-down of the 'Data Management' tab will look different for every user as it depends on the permissions that are assigned to the user's account. If the user for example only have permission to capture complaints, compliments and suggestions only those options will be displayed.

There are **3 functions on the home screen to capture complaints, compliments and suggestions**, i.e.:

3. Creating a new record for a complaint, compliment or suggestion
4. Search for an existing complaint, compliment or suggestion that has already been captured.
5. Do a look-up according to the staff member that has captured the complaint, compliment or suggestion record or who last edited the complaint record.
6. **To capture a new** complaint, compliment or suggestion record, click on the '**New**' button at the left bottom corner of the screen.

**Note:** the process to capture a complaint, compliment or suggestion is similar and will therefore be described in one section using the complaint capture screen as example.

**Note the following:**

15. Fields with dropdown values are indicated with an arrow, click on the arrow and select the appropriate value from the drop-down list by clicking on the value.

16. If the complainant's name, surname and contact details are the same as the Patient's details (where the patient is the complainant), select the tick box next to the field named 'Same as Complainant'; the information will then be auto filled into the Patient's Details section.

17. Multiple classes can be selected at the 'Category for Complaint', 'Category for Compliment' or 'Category for Suggestion' by clicking in the box next to the category.

18. If the category named 'other' is selected an additional text box will open where a short description of the type of complaint (limited to 35 characters) must be entered into the box named 'Please specify the Category'.

19. The field named 'Received From' contains a default value of 'Facility'. If the complaint was not lodged at the facility, select the area where the complaint was received from, from the drop-down value.

Complete all the fields on the form.

**Note:** Not all fields are compulsory to complete, but some are.

20. All fields marked with a **red asterisk** are compulsory to complete.

21. If these fields are not completed an error message will appear upon save with instructions on which fields must still be completed. The fields will also be highlighted in red on the form once the pop-up box displaying the error messages has been closed.

22. All fields marked with an **orange asterisk** are compulsory to complete once the "Date Resolved" has been selected.

23. Once all the fields marked with a red asterisk have been completed, select the 'Save' button.

24. A pop-up message will appear 'Complaint has been saved'.

25. Select the 'Close' button to return to the capturing screen.

26. If the form is closed without having selected 'Save' a pop-up message will appear to prompt the user to 'save'.

**Note:** If the form is closed without having selected 'save' the data will be lost!

27. Once the investigation has been finalised the user can go back to the form and look-up the complaint (see points 28 to 31 on the next page) to edit it. Once the **'Date complaint closed' has been selected** a pop-up screen will appear if once the 'Save' button is selected. A message will appear requesting the user to save the form. Select the 'Confirm' button, the form will be 'locked' and cannot be opened again for editing (unless the user has administration permissions).

## 5.1 Functions of the filters on reports

Use the filters on the report section to generate specific data for complaints/compliments/suggestion.

The functions of the filters are as follow:

- **District/sub-district/Facility:** If the user wants to generate aggregated data per district or sub-district, select the specific district or sub-district from the filter before generating the report. Note that if the permissions of the user account of the staff member are set to capture and generate reports for only one facility the user do not need to select any filter at the filter named 'Facility', the report will by default only generate data for the facility. If the permissions of the user account of the staff member are set to capture and generate reports for sub-district, district and provincial level, the report will generate collated data according to the user's permissions. For example is the user has permission for a province, the reports will generate by default a collated report for all the facilities in the province. If this user want to generate data for example for a specific district, select the specific district from the drop-down value from the filter.
- **Resolved:** If the user wants to generate a register to follow-up on unresolved complaints, go to the report named 'Complaints: Register' select at the filter named 'Resolved' the option 'No'. The register will then display all the unresolved complaints so that the user can follow-up on the unresolved complaints.
- **Location:** If the user only wants to generate a report for a specific area in the health facility, select the specific location from the drop-down values at the filter named 'Location'.
- **Year:** If the user wants to generate a report for a specific financial year, select from the drop-down values the financial year for which the user wants to generate the report for.
- **Ownership:** If the user wants to generate a report for facilities owned my local or provincial government, select the specific option from the drop-down values on the filter.

**Table 1: Functions of the complaints/compliment/suggestion reports**

Name of report	Function
<ul style="list-style-type: none"> <li>• Complaints: Register</li> <li>• Complaints: Statistical</li> <li>• Compliments: Register</li> <li>• Compliments: Statistical</li> <li>• Suggestions: Register</li> <li>• Suggestions: Statistical</li> </ul>	<p>The reports provide data for a specific facility, but depending on the permissions assigned to the user account it can also provide aggregated data per province/district/sub-district if a specific facility is not selected from the filter values. To generate data per province/district/sub-district, select the specific options from the drop-down values, see examples of how to select the filters on page 13, points 3 to 7.</p>
<ul style="list-style-type: none"> <li>• Complaints: Compliance Report</li> </ul>	<p>The report provides data on the number of facilities that have reported on the information system for every month per financial year, this will assist managers to follow-up on facilities that have not reported on the system.</p> <p><b>Note 1:</b> The report will by default enter 'Y' for 'Yes' under the month if a complaint was captured for that month by the facility.</p> <p><b>Note 2:</b> Facilities that <b>did not have any complaints for a specific month must complete a 'Null report'</b> for the specific month, see page 10 to 11.
